PROFICO is an independent owned company. The main objectives of PROFICO include the search for rationalization, respect for deadlines and flexibility to adapt the services provided to the needs of clients, respecting safety, legislation and quality requirements. Profico has worked in close cooperation with different companies specialized in areas outside the scope of Profico, including topography, geotechnics, electrical and mechanical infrastructures and architecture, allowing Profico to assume the coordination of multidisciplinary projects, through its Project Management Division. Through its affiliated Profico Environment and Territorial Planning, founded in 2000, the company provides a manifold of services in the vast field of environmental studies. The company is nowadays presented in Angola, Mozambique, Brazil and East Timor through its affiliates, CENGA, ECM, PROFICO BRAZIL and PROFICO RP Timor.</p> <p>Main Expertise</p> <ul style="list-style-type: none"> • Civil engineering design projects. • Construction supervision and project management. • Project coordination of multidisciplinary teams. • Technical consulting. <p>Services</p> <ul style="list-style-type: none"> • Civil engineering projects: <ul style="list-style-type: none"> – Structural design of bridges and viaducts. – Buildings structural design. – Reservoirs and silos design. – Water and sewage system design. – Foundations and retaining walls – Urban and industrial infrastructures. – Structural rehabilitation and reinforcement – Transport infrastructures. • Project coordination of multidisciplinary teams of: <ul style="list-style-type: none"> – Architecture. – Electrical and electromechanical installations. – Water supply and treatment systems. – Roads and railways. • Supervision and project management <ul style="list-style-type: none"> – Construction and rehabilitation of office and residential buildings. – Water supply and water treatment systems. • Consulting <ul style="list-style-type: none"> – Design project review. – Technical consulting in structural engineering and construction. – Licensing of the industrial facilities construction. – Viability studies. – Contractor management. <p>Significant Last Works</p> <p>Structural Design Projects</p> <ul style="list-style-type: none"> • Residential Building in Olaias, Lisbon (28.000m²) • Setúbal Hotel training school. • IKEA store in Loures. • Structural rehabilitation of the building in Rua do Salitre 27-31, Lisbon. • IKEA building in Matosinhos - Mall reformulation, Oporto. • Structural rehabilitation of the building in Av.
